VIBRANT ELECTROMECHANICAL CONTRACTING LLC

Engineering the systems that power buildings.

COMPANY PROFILE

Abu Dhabi, United Arab Emirates • 2026

About Us

Vibrant Electromechanical Contracting LLC is a UAE-based contractor delivering mechanical, electrical and building works for government, institutional, commercial and residential clients.

We combine in-house engineering coordination with disciplined site supervision, so every installation is planned, built, tested and handed over to the specification and on programme.

Our scope runs from new-build MEP packages for towers, schools, clinics and public facilities to long-term maintenance of the buildings we serve. Our project record runs from Abu Dhabi and Al Ain to Dubai and Sharjah — large-scale public infrastructure, education and healthcare facilities, residential and commercial towers, and private palaces.

Licence: CN-5199433 — Abu Dhabi branch established 12 February 2024, expiry 15 April 2027.

HSE & Quality

Quality is managed under QA/QC Plan VEM-QC-PP-001 (Rev. 00, October 2026), with approved materials, inspection and test plans, and hold and witness points on every project. Our quality objective is a 90% first-submission approval rate.

Health, safety and environment are managed under HSE Plan VEM-HSE-PP-001 (Rev. 00, October 2026), with a project HSE plan, risk assessments, permit-to-work controls, trained supervisors and regular inspections. Our HSE targets are zero fatalities, zero lost-time injuries and zero environmental incidents.

Certifications & Approvals

Standard	Certificate No.	Certifier	Issued	Valid to
ISO 9001:2015	UAE-AB-QMS-K691D	Quality Registrar Systems	11 May 2026	10 May 2027
